

ADAPTO 900

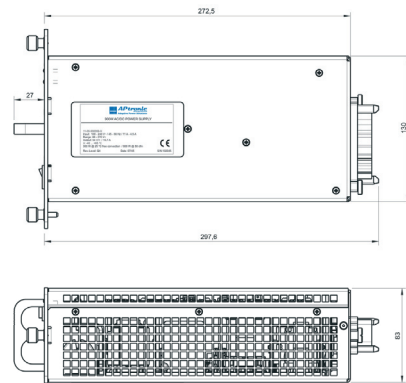

power supply intended for telecommunication or general use

solved.
www.aptronic.de

Description

The power supply is intended for use in telecommunications, yet, also applicable for general use. The unit is designed to work in a cabinet which provides sufficient airflow for cooling.

Input

- Input Voltage: 100 - 240 V AC ~
- Input Current: 4.5 A
- Frequency: 45 - 66 Hz
- Active PFC: > 0.95
- Efficiency: > 87%

Output

- Output Power: 900W
- Output Voltage: 54 V
- Output Current: 0 - 16.7 A

APtronic US Headquarter
Naples, Florida - USA

Mechanics

- Case Material: Aluminum
- Protection Category: IP 30

Safety

- Active & Alarm indication
- Meets EN60950, UL60950, and CSA 22.2 No. 60590 requirements

Details

- Operating Temperature: - 40°C ... + 65°C
- Storage Temperature: - 45°C ... + 70°C
- Temperature controlled

APtronic AG Headquarter
Bad Sassendorf, Germany

Features

- Regulated and protected against short-circuits and overload
- Thermal protection
- Meets EN61000-6-2 industry and EN61000-6-3 household requirements

Production site
Dongguan, China
